

The challenge of climate change will be the most formidable environmental challenge the world faces over the next 20 to 30 years. It's hard to think of a greater gift we could give at the turn of the century or a new millennium than a clean energy future.

– President Bill Clinton

Clean energy technology will play an increasingly important role in our energy security. It will allow us to use less energy overall, while making greater use of non-polluting energy sources.

– Secretary Bill Richardson

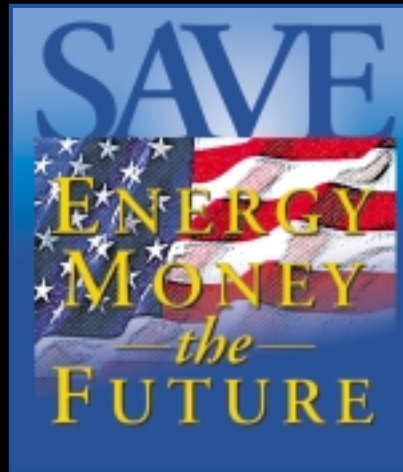

To bolster energy awareness across the Federal government, Federal agencies are participating in the “You Have the Power” campaign to instill energy efficiency as a basic public value and to propel Federal workers into a new, energy-efficient era.

This campaign follows through on the President’s Executive Order to reduce energy use in Federal buildings by 35% relative to 1985 levels by 2010, cutting greenhouse gas emissions thought to cause global warming, and saving taxpayers over \$750 million annually.

CLEAN ENERGY

FOR THE
21ST CENTURY

EARTH DAY
2000

**PARTNERING FOR A
GREENER GOVERNMENT**

**DEPARTMENT OF AGRICULTURE**

Accomplishing the efficient use of energy resources while maximizing the ability of the Department to accomplish its mission and maintain the health and safety of USDA employees and visitors
www.usda.gov

**DEPARTMENT OF THE AIR FORCE**

Implementing the National Energy Strategy to further a secure, efficient, and environmentally sound future
www.afcesa.af.mil/Directorate/CES/Mechanical/Energy/Energy.htm

**DEPARTMENT OF THE ARMY**

Reducing energy consumption without affecting mission readiness or "quality of life" for soldiers, their families, and civilian employees
www.lia.army.mil

**DEPARTMENT OF COMMERCE**

Promoting job creation, economic growth, sustainable development and improved living standards for all Americans through the provision of effective management and stewardship of the Nation's resources
www.doc.gov

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

Protecting the health of all Americans and providing essential human services, especially for those who are least able to help themselves
www.hhs.gov

**DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

Increasing the energy efficiency of low income housing to reduce the disproportionate energy burden on low income households, improve utility management, and expand the use of renewable energy resources
www.hud.gov

**DEPARTMENT OF THE INTERIOR**

Protecting and providing access to our Nation's natural and cultural heritage by encouraging and providing for sustainable management, preservation, and operation of public lands and natural resources.
www.doi.gov

YOU HAVE the POWER™

LEADING THE WAY FOR AMERICA

The responsible and wise use of America's energy involves dedicated teamwork. As the largest consumer of energy in the nation, the Federal government bears the mantle of leadership in managing that energy wisely.

**DEPARTMENT OF ENERGY**

Developing and deploying efficient and clean energy technologies that meet our nation's energy needs, enhance our environment, and strengthen our national competitiveness
www.eren.doe.gov

**DEPARTMENT OF JUSTICE**

Promoting understanding and compliance with all applicable laws and regulations to protect the Nation's natural resources
www.usdoj.gov

**DEPARTMENT OF LABOR**

Identifying energy waste, creating efficient design solutions, and improving the overall use of energy to improve the productivity of all Department of Labor employees
www.dol.gov

**DEPARTMENT OF THE NAVY**

Reducing utility infrastructure costs by decreasing energy consumption and the costs associated with the operation and maintenance of energy consuming equipment.
www.navy.mil

**DEPARTMENT OF STATE**

Reducing our dependence on foreign oil and cleaning up the environment by using cutting-edge technologies that show citizens of other countries that we practice what we preach at home and abroad
www.state.gov

**DEPARTMENT OF TRANSPORTATION**

Ensuring improved energy management throughout the Department to save taxpayer dollars and improve the environment
www.dot.gov

**DEPARTMENT OF THE TREASURY**

Reducing energy use and cost by making new and renovated buildings more efficient and comfortable, while emphasizing incorporation of renewable energy technologies
www.ustreas.gov

**DEPARTMENT OF VETERANS AFFAIRS**

Providing the best medical care for veterans while identifying and accomplishing cost effective projects that reduce the consumption of energy and cost of operations and maintenance
www.va.gov

**ENVIRONMENTAL PROTECTION AGENCY**

Improving the environment and public health through the application of technologies that save energy and water, reduce pollution, and increase operational efficiency.
www.epa.gov

**GENERAL SERVICES ADMINISTRATION**

Buying, Building, Driving, Managing and Saving Green under our cohesive "Planet USA" program, while providing great space, products, vehicles, technology and policies for customer agencies
www.gsa.gov/planetgsa/

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

Improving energy efficiency to save taxpayer dollars, reducing emissions contributing to air pollution and global climate change, and conserving precious natural resources for future generations.
www.nasa.gov

**UNITED STATES POSTAL SERVICE**

Contributing to the sustainability of our natural resources through effective energy management, energy conservation, utility optimization, and the use of renewable energy
www.usps.gov
